ABOUT Health Care Foundation

Health Care Foundation is a Government Registered Trust, NGO ID is WB/2020/0263658. More than 4,000 volunteers, more than 160 doctors and more than 300 nurses are associated with us across West Bengal. Our endeavor is to reach every remote places of rural and semi urban locality to aware marginalized people about HEALTH CONSIIOUSNESS.

Mission : Healthy Society

For the last six years, we have been providing our health services to the public through various health camps in the heart of West Bengal. Currently, our main mission is to form a healthy society. We are working on two projects to form a healthy society.

One is a children's Health Awareness camp where BMI tests are conducted to check whether children are growing at the right height and growth rate for their age, to increase health awareness about concentration, brain development, diet, exercise, etc.

Another project is to raise health awareness among people in every corner of remote villages and provide them with access to various medical services through our helpline.
